Education

Dayananda Sagar College Of Engineering CGPA: 9.7/10

Bachelor of Technology in Computer Science and Design

Nov 2022 – June 2026

Bengaluru, Karnataka

Experience

Nasdaq

SDE Intern

Jan 2026 – Present

Bengaluru, India

- Designed and shipped **2** production-grade **REST API** endpoints in **Go** using layered architecture (handler, service, repository), achieving **100%** unit test coverage with **httptest**; reduced PR review cycles by **~40%** via early-return guard pattern refactors.
- Built a **VS Code** extension as a token-reduction wrapper over **GitHub Copilot**, using native **vscode.lm** and **vscode.window** APIs to perform CRUD on task files in **1–2** LLM calls; validated token savings with **OTEL** telemetry across **2** model families (Haiku, Sonnet).
- Authored repository-wide **Copilot** instructions file applying custom prompt templates and agent skill configurations, reducing incorrect or pattern-breaking code generation by **~30%** across the team; also won **1st place** at Nasdaq's internal **AWS GameDay** cloud infrastructure competition.
- Architected an **AG-UI** protocol POC across **3** layers (**React** frontend, **Go** backend, **Python** microservice), streaming AI-generated events to mimic the platform's "draft with AI" feature; evaluated trade-offs of emitting events from **Go** vs **Python** and demoed working multi-layer implementation to the team.

GiftOlexia

Web Development Intern

May 2025 – Sep 2025

Bengaluru, India

- Spearheaded assessment page redesign within a **4-member agile** team, iterating through **3+** design versions through close collaboration with stakeholders to meet business objectives.
- Configured **Render** deployment pipeline with **Git-based CI/CD**, achieving **99.8%** uptime across **6** production releases.
- Boosted assessment completion rates by **30%** and reduced user drop-off by **25%** through mobile-first responsive design.

Projects

Local AI Personal Assistant | *Go, Gin, Python, FastAPI, React, PostgreSQL, Docker, Ollama*

- Architected an **8-service microservices** system with a **Go/Gin API** gateway handling **JWT** authentication, **PostgreSQL** persistence, and **Docker Compose-based CI** deployment, with reverse proxying to independent **FastAPI** services (todo, finance, calendar, vault, LLM worker).
- Built a local LLM-powered finance service using **Ollama** to parse bank statement PDFs, auto-categorize transactions, and generate spending dashboards — **100%** private, zero data leaving the machine.
- Implemented an intent-based LLM orchestrator ("Brain") that routes natural language requests to the correct microservice — tasks, calendar events, secrets, or financial queries — via **Ollama**.
- Containerized all services with **Docker Compose** including a unified **PostgreSQL** instance, **Google Calendar OAuth** integration, and a **React + Vite** frontend consuming the **Go** gateway.

SilentVoice — ASL Animation Suite | *Python, SMPL-X, Sentence-BERT, FAISS, VAE, React*

- Built a **3D ASL** synthesis system over a **31K+** sentence corpus (How2Sign), achieving **92%** coverage and **88%** semantic accuracy using **Sentence-BERT** and **FAISS**-powered semantic retrieval.
- Implemented **VAE** latent space blending with weighted interpolation of top-K semantic matches, generating smooth novel animations on anatomically accurate **55-joint SMPL-X** avatars.
- Designed a **3-tier confidence cascade** (full-sentence matching, VAE blending, phrase-level chunking) with **91%** animation quality score across neutral, male, and female body types.
- Shipped **YouTube** transcript integration and a **Manifest V3 Chrome extension** for real-time ASL overlay generation on web content.

Certifications

Databricks Fundamentals

Databricks Academy

Apr 27, 2026

Go: The Complete Developer's Guide

Udemy

Achievements & Leadership

Technical Competitions: 3rd place among 600+ participants in TCS TechBytes 2025

Hackathon Winner: 1st place at Blitz'24 Hackathon among 100+ teams

Academic Recognition: Paper presentation on Context-Aware Text-to-Braille Conversion at ICCMDSA 2025

Academic Excellence: "Best Outgoing Student" award at Holy Spirit School for outstanding performance

Gaming Championship: Winner of inter-college Valorant tournament (DSCE and Amrita College)
